Remember that the quality of the defenses, hence the quality of the of the school on the labor market depends on you. The remote defences during the Covid crisis allows more flexibility so you can progress into your curriculum, but also brings more risks of cheat, injustice, laziness, that will harm everyone's skills development. We do count on your maturity and wisdom during these remote defenses for the benefits of the entire community.

SCALE FOR PROJECT FWA (/PROJECTS/FWA)

You should evaluate 2 students in this team

★

Git repository

`git@vogsphere.msk.21-school.ru:vogsphere/intra-uuid-21765`   📋

Introduction

The methodology of School 21 makes sense only if
peer-to-peer assessments are done seriously.
This document will help you to do it properly.

- Please, stay courteous, polite, respectful and constructive in all
communications during this assessment. The bond of trust
between community 21 and you depends on it.

- Highlight possible malfunctions of the work done by the person
and take the time to discuss and debate it.

- Keep in mind that sometimes there can be differences
in interpretation of the tasks and the scope of features.
Please, stay open-minded to the vision of the other.

Guidelines

- Evaluate only the files that are on the GIT
repository of the student or group.

- Doublecheck that the GIT repository is the one
corresponding to the student
or the group as long as to the project.

- Meticulously check that nothing malicious has been used
to mislead you and have you assess something except
the content of the official repository.

- If you have not finished the project yet, it is compulsory
to read the entire subject before starting the review.

- Use the special flags in the scale to report an empty
or non-functional solution as long as a case of cheating.
In these cases, the assessment is completed
and the final grade is 0 (or in a case of cheating is -42).
However, except for a case of cheating, you are encouraged to continue
reviewing the project to identify the problems that caused the situation
in order to avoid them for the next assessment.

- You must stop giving points from the first wrong exercise
even if the following exercises are correct.

Attachments

☐ subject.pdf (https://cdn.intra.42.fr/pdf/pdf/19432/en.subject.pdf)

Preliminaries

Respect the rules

- The repository contains the work of the student (or group).
- The student is able to explain their work
at any time during the assessment.
- The general rules are respected throughout the assessment.

☑ Yes   ✕ No

FWA

Exercise 00 - Welcome To Servlets

- Do README.txt instructions and the schema.sql and data.sql
scripts launch the application successfully?
- Does project structure comply with the task?
- Does application provide access to the corresponding pages
via /signIn and /signUp?
- Is data sent to the appropriate servlet in a POST request upon registration?
- Is user saved to the database?
- Is password encrypted with BCrypt algorithm?
- Is a session generated with a user attribute upon successful authentication?
- Is a user brought back to /signIn page if authentication fails?
- Is Spring context loaded inside a Listener?
- Is DB connection data present in application.properties?

☑ Yes   ✕ No

Exercise 01 - Authentication

- Does application provide access to the corresponding pages
via /signIn and /signUp?
- Does an authenticated user get /profile page when
requesting /signIn and /signUp pages?
- Does an unauthenticated user get /signIn page and 403 status
when requesting /profile page?

      ✓ Yes   ✕ No

Exercise 02 - JSP

- Does /profile JSP page show the data to an authenticated user?
- Is authentication list compiled correctly?
- Is it possible to upload an "avatar"?
- Does the upload function work correctly?
- Can users upload files with the same name?
- Is a list of uploaded files compiled correctly?
- Do images open in new tabs?

      ✓ Yes   ✕ No

Ratings

Don't forget to check the flag corresponding to the defense

    ✔ Ok   ★ Outstanding project

📄 Empty work   ⚠ Incomplete work   ☠ Invalid compilation   🗐 Cheat   ☢ Crash

⊘ Forbidden function
